

## Cable Assembly Series

射频同轴连接器在具体应用中，大部分是与射频同轴电缆连接成电缆组件使用。在电缆组件制作过程中，需要一定的工艺手段。金润信公司拥有先进的射频同轴电缆组件加工和测试设备，可按要求制作各种软性电缆和半刚、半柔性电缆组件。

In practical application, the RF coaxial connectors mostly are used for cable assemblies with RF coaxial cables. It needs certain technical means in the process of producing cable assemblies. Jinrunxin has advanced manufacturing and test equipment of RF coaxial cable assemblies. We can produce each kind of soft cable, semi-rigidity and semi-soft cable assemblies according to your request.
